Greater Cincinnati Religious Peacemakers Various Religious Leaders from Greater Cincinnati 2021-01-01 Throughout human history, wars and violence have often been waged in the name of religions and the name of diverging religious beliefs and belonging. Ironically, though, all religions in their teachings speak of nonviolence and have in common the promotion of peace and justice, namely the respect for human life and dignity, the institution of human rights, the protection of the poor and vulnerable, the freeing of the oppressed, the active elimination of injustice? It seems therefore, that violence and war would be antithetical to religions; yet they are so frequently used as their justification. Are we speaking of different "religions"? "Institutional religions," the ones structured by humans and then brandished to lead violence and wars, become in fact quite foreign to the essence of the religions were established by their founders and that they intend to represent; they actually contribute to destruction. Wanting to reflect on that point, I embarked, a few years ago, on giving voice to local religious individuals, whom I called "Religious Peacemakers," and who, each by living the essential teachings of their particular faith, contributed by their actions to peace and justice. I wanted that their path, irrespective of their original religion, would be similar, and that their diverse faiths instead of separating them, would on the contrary end up uniting them.

The National Highway Traffic Safety Administration's Rating System for Rollover Resistance
Research Council (U.S.). Committee for the Study of a Motor Vehicle Rollover Rating System 2000
Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.

The Rainbow Carly Schabowski 2021-07-28 There, on the dusty floorboards, was a piece of paper folded neatly. A newspaper article, written in German, alongside a faded picture of two men in military uniforms staring at the camera. I was about to place it back in the box of forgotten things when something in the text jumped out at me. My breath caught in my chest. I know that name. Long gone in the present day. Isla has grown up hearing her beloved grandad's stories about his life as a child in Poland and as a young soldier bravely fighting the Germans to protect his people. So she is shocked and heartbroken to find, while collecting photos for his 95th birthday celebration, a picture of her grandfather wearing a Nazi uniform. Is everything she thought she knew about him a lie? Unable to ask the question him due to his advanced dementia, Isla wraps herself in her rainbow-coloured scarf, a memento of his from the war, and begins to hunt for the truth behind the photograph. What she discovers is more shocking than she could have ever anticipated - a tale of childhood sweethearts torn apart by family duty, and how one young man risked his life, his love and the respect of his own people to secretly fight for justice from inside the heart of the enemy itself... An heartbreaking novel of love, betrayal and a secret passed down through a family. Inspired by an incredible true story. Perfect for fans of The Tattooist of Auschwitz, We Were the Lucky Ones and The Alice Network. Readers who love The Rainbow: 'Oh my gosh... this book broke me... it will stay with me for a very long time.' 'A heartbreaking, poignant, gripping and compelling I felt every emotion... I read this book in one sitting.' Fiction Vixen Reads, ?????? 'Will rip your heart out... It has heartache, pain, loss, joy, and sorrow.' 'A great WWII historical fiction... heartbreaking.' Auto Repair For Dummies Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling automotive guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of all households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each auto system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
