Body Piercing and Tattooing Robert Z. Cohen 2013-07-15 With body piercing and tattooing becoming more popular and mainstream, many teens may think about engaging in these forms of body modification. An excellent resource for young people pondering a piercing or tattoo, this title presents some of the pros and cons they should consider. In an honest and engaging manner, the author presents important information teens need to protect their health, including how to identify a reputable studio, what to expect from the procedures, and how to do proper aftercare. Legal, social, and familial issues are explored, too, including the importance of discussing the decision with their parents and choosing tattoos or piercings they can live with throughout adulthood.

System Dynamics and Control Eronini Umez-Eronini 1999 This applied and comprehensive book combines topical coverage of both System Dynamics and Automatic Controls in one text, resulting in a pedagogically sound presentation of both subjects that can be used in this standard two-course sequence. It is thorough and complete, with, according to one reviewer, a "tremendous number of interesting practice problems covering a broad range of areas, giving the instructor significant choice and flexibility" in teaching the material. The book also has a wealth of worked-out, real-world examples, with every step clearly shown and explained. Cumulative examples that build through succeeding chapters demonstrate the stages of system modeling, from initial steps - which include the important but often omitted physical modeling process - through mathematical analysis to design realization. The result is a new and unified presentation of system dynamics and control, founded on a wide range of systems (mechanical, electrical, electromechanical - including MEMS, fluid, thermal, and chemical), with a common state-space approach.

The Valentine's Day Disaster Lori Wilde 2014-02-04 A Twilight, Texas Novella Valentine's Day can be a real disaster ... even in a town like Twilight, Texas! These days, event planner Sesty Snow is no fan of hearts, flowers, or goo-goo eyes over dinner. She's learned to be in control of her life and her emotions. Still, running Twilight's annual Valentine's Day bachelor auction is right up her alley—until her high school sweetheart zooms back into town. He's still heart-stoppingly handsome, but it's clear he hasn't changed the daredevil ways that put the brakes on their first love. Injured NASCAR driver Josh Langtree isn't up for being anyone's sweetheart these days either. He's just looking for a place to lick his wounds ... until a misunderstanding lands him doing community service in Sesty's auction. Soon he finds himself standing in front of hundreds of screaming women—wearing a tux and a smile. And then there's

Sesty—looking as tempting as ever. He says he's changed, and the sparks between them are flying fast and furious, but can Sesty trust Josh to take the wheel and drive her into the future she never dreamed possible?

The Only Guide to Alternative Investments You'll Ever Need Larry E. Swedroe 2010-05-13 The rewards of carefully chosen alternative investments can be great. But many investors don't know enough about unfamiliar investments to make wise choices. For that reason, financial advisers Larry Swedroe and Jared Kizer designed this book to bring investors up to speed on the twenty most popular alternative investments: Real estate, Inflation-protected securities, Commodities, International equities, Fixed annuities, Stable-value funds, High-yield (junk) bonds, Private equity (venture capital), Covered calls, Socially responsible mutual funds, Precious metals equities, Preferred stocks, Convertible bonds, Emerging market bonds, Hedge funds, Leveraged buyouts, Variable annuities, Equity-indexed annuities, Structured investment products, Leveraged funds The authors describe how the investments work, the pros and cons of each, which to consider, which to avoid, and how to get started. Swedroe and Kizer evaluate each investment in terms of: Expected returns Volatility Distribution of returns Diversification potential Fees Trading and operating expenses Liquidity Tax efficiency Account location Role in an asset-allocation program Any investor who is considering or just curious about investment opportunities outside the traditional world of stocks, bonds, and bank certificates of deposit would be well-advised to read this book.
