Energetic Boundaries Cyndi Dale 2011-10-01 Just as our physical body is protected by our skin, our psyche and spirit have "energetic boundaries" that keep out harmful influences. These boundaries, invisible to the naked eye, are more than just defenses—according to Cyndi Dale, these "spiritual borders" are our soul's way of communicating to the universe what we do and don't want to experience in life. With Energetic Boundaries, this renowned intuitive and energy-medicine expert presents a definitive guide for maintaining this essential aspect of

our health and personal integrity, including: Our four energetic boundaries—techniques to enhance the health of your physical, emotional, relational, and spiritual borders Self-diagnosis instructions for determining where your boundaries are weakest—and practical ways you can strengthen them How to signal the world that you are ready for success and prosperity Special guidance for healers, sensitives, and people whose work regularly exposes them to strong emotional forces How healthy boundaries allow us to balance intimacy and personal autonomy in relationships and parenting —Strong and flexible energetic boundaries allow us to share who we truly are with the world,— teaches Cyndi Dale. Filled with insights, practical guidance, and easy-to-learn techniques, *Energetic Boundaries* is an indispensable tool for staying protected and connected in every aspect of life—in our relationships, career, and on our spiritual journey. —Energetic Boundaries is must-reading for everyone who wants to get and stay healthy. Understanding the role of boundaries and applying them is how one creates health at the most basic level.” —Christiane Northrup, MD, OB/GYN physician and author of the New York Times bestsellers *Women's Bodies*, *Women's Wisdom* and *The Wisdom of Menopause*

Stones of the Seven Rays Michel Coquet 2012-05-11 The magical and spiritual uses of the seven sacred gemstones--diamond, sapphire, emerald, jasper, topaz, ruby, and amethyst — Explores each sacred gem's effects on the seven facets of the soul and their corresponding virtues — Reveals their spiritual and therapeutic uses, the meaning of their colors, their ties to the chakras, and their historical use in amulets, talismans, and other magical tools — Outlines the basics of Seven Ray Science and the properties of each of the Seven Rays Taught solely in secret for millennia, the Science of the Seven Rays was introduced outside of the ancient mystery schools of Western and Hindu tradition by some of the great occultists of the late 19th and early 20th century: H. P. Blavatsky, Manly Hall, C. W. Leadbeater, and Alice Bailey. Based on the soul's seven-faceted nature, the Seven Ray system underlies metaphysical traditions around the world through its connections with the seven musical notes in the scale, the seven days in the week, the seven chakras, the seven colors of the rainbow, and the seven sacred planets. Laying out the key principles behind this spiritual science, Michel Coquet explores the seven sacred gemstones of the Seven Rays--diamond, sapphire, emerald, jasper, topaz, ruby, and amethyst--and shows that not all precious stones have true mystical powers: they must be charged, either naturally or through ritual, with a living deva or angelic presence before they can effect spiritual transformation and physical, mental, and soul healing. Drawing on Hindu, Jewish, pre-Columbian, and Greco-Roman magical traditions with precious stones as well as their use by great initiates of history--including Hildegard von Bingen, Paracelsus, Cornelius Agrippa, Elias Ashmole, Nicholas Flamel, and the Count de Saint Germain--Coquet examines each sacred gem's effects on the seven facets of the soul as well as their spiritual and therapeutic uses, the meaning of their colors, their influences on the chakras, and their use in amulets, talismans, and other magical tools. Illuminating techniques of invoking spirits into gemstones and reports of the power to enlarge diamonds at will, stones that produce anesthesia, and the use of gem medicines in India, Coquet reveals that while gems can influence our physical, mental, and spiritual well-being, without daily work toward a gem's corresponding virtue, even a consecrated stone will have no effect, for the most beautiful gems are within.

Spiritual Nutrition Gabriel Cousens, M.D. 2009-03-03 When we eat, can we feed the soul as well as the body? Can a diet have an impact on spirituality? *Spiritual Nutrition* empowers readers to develop personal diets that are appropriate to their lifestyles and spiritual practices. Awakening through the Nine Bodies Phillip Moffitt 2017-09-05 Based on meditation practices Phillip Moffitt learned twenty years ago from Himalayan yoga master Sri Swami Balyogi Premvarni, this beautifully illustrated book is a guide to exploring the nature of mind and gaining a better understanding of experiences that arise during meditation. The Nine Bodies teachings map out a journey that starts with consciousness that arises in the physical body and is directly observable, and then travels through ever more subtle levels of consciousness to that which is not manifest and is only potential, and therefore has to be inferred. The book includes a series of mysterious illustrations that Balyogi created during his time of intense Samadhi explorations. Each illustration is a rich composition of symbols that express aspects of inner experiences that are almost impossible to express with language. Moffitt makes these teachings available for meditation students from all spiritual traditions to use as gateways for exploring the nature of mind and as additional means for tracking and classifying meditative experiences. Students of yoga will also find value in the teachings of the Nine Bodies as they provide a means for

contextualizing and connecting with yogic teachings on chakras, koshas, gunas, and the Three Bodies.

Rainbow Body Kurt Leland 2016-01-01 If you've ever had questions about the inconsistencies between chakra systems or wondered where the names, colors, locations, and other associations came from—you'll find the answers here, along with 24 tables and 28 black-and-white illustrations showing how the Western chakra system

developed from the mid-19th through the 20th century, many from rare and forgotten sources. Based on the teachings of Indian Tantra, the chakras have been used for centuries as focal points for healing, meditation, and achieving a gamut of physical, emotional, and spiritual benefits, from improved health to ultimate enlightenment. Contemporary yoga teachers, energy healers, psychics, and self-help devotees think of the chakra system as thousands of years old. Yet the most common version in use in the West today came together as recently as 1977. Never before has the story been told of how the Western chakra system developed from its roots in Indian Tantra, through Blavatsky to Leadbeater, Steiner to Alice Bailey, Jung to Joseph Campbell, Ramakrishna to Aurobindo, and Esalen to Shirley MacLaine and Barbara Brennan.

Though her abilities are exceptional, they are not unique, and that is the message at the core of this book. Understanding "the secret language of the universe" is a gift available to all. As we learn to ask for and recognize signs from the other side, we will start to find meaning where before there was only confusion, we will see light in the darkness. We may decide to change paths, push toward love, pursue joy, and engage with life in a whole new way. In Signs, Jackson is able to bring the mystical into the everyday. She relates stories of people who have experienced these uncanny revelations and instances of unexplained synchronicity, as well as those drawn from her own experience. There's the producer whose lost child appears to her as a deer that approaches her unhesitatingly at a highway rest stop; the name tag of an ER nurse that lets a terrified wife know that her husband will be okay; the Elvis Presley song that arrives at the exact time of her own father's passing; and many others. This is a book that is both inspiring and practical, deeply comforting and wonderfully motivational in asking us to see beyond ourselves to a more magnificent universal design"--
