Mix // Hard Back Joshua Lepley & 2017-12-27 An illustrated guide to some of the most classic cocktails.
Many, Many Miracles Wilson Foreman 2008-12-01 From 1956 to 1974, Wilson Foreman played Texas politics with a memorable cast of characters from governors and House Speakers to a host of legislators and political operatives, all in Lyndon Johnson's back yard. Many, Many Miracles serves as a political memoir of Wilson's sixteen years as a state representative for Travis County. The book also examines Wilson's spiritual life and considers the formative years that led him to public service. A man shaped by an unusual gift, Many, Many Miracles is about the spiritual disposition which he received, and all that transpired to prepare him for his future calling.
Market Investigations Massimo Motta 2022-01-06 Increased concentration and rising market power require new rules. Market investigations are necessary to complement existing regulations.

Design and Make Your Own Contemporary Sampler Quilt Katie Pasquini 1994-10-01 How to combine traditional patterns into pre-planned layout to create handsome, one-of-a-kind quilts. 100 block plans.

Designing and Evaluating Usable Technology in Industrial Research Clare-Marie Karat 2010 This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in conducting HCI research in practice. Then case study examples of HCI approaches to the design and evaluation of usable solutions for people are presented and discussed in three domain areas: - item Conversational speech technologies, - item Personalization in eCommerce, and - item Security and privacy policy management technologies In each of the case studies, the authors illustrate and discuss examples of HCI approaches to design and evaluation that worked well and those that did not. They discuss what was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice. These decisions are ones that need to be made regularly in the industrial sector. Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research domains to draw insights and conclusions about the themes that were introduced in the beginning of the book. The Karats conclude with their perspective about the future of HCI industrial research. Table of Contents: Introduction: Themes and Structure of the Book / Case Study 1: Conversational Speech Technologies: Automatic Speech Recognition (ASR) / Case Study 2: Personalization in eCommerce / Case Study 3: Security and Privacy Policy Management Technologies / Insights and Conclusions / The Future of Industrial HCI Research
