Widdershins Oliver Onions 2015-01-14 A collection of nine marvellous stories of the supernatural. The Edwardian era was the last great period of the English ghost story, and Oliver Onions' "Widdershins" is one of the classic collections of the age. Although each of the nine stories here is worth reading, the collection is famous because of "The Beckoning Fair One," a novella of ghostly obsession and mental disintegration just as powerful as Henry James' "The Turn of the Screw." "The Beckoning Fair One" is one of the most oft-anthologized horror tales. This ghost story has been called one of the best in the English language by such luminaries as Algernon Blackwood and H. P. Lovecraft. The tale concerns an author who moves into a deserted house and starts to become influenced by its ghostly female occupant? Or...is it just in his mind?

Ghosts I Have Met and Some Others John Kendrick Bangs 1902 Richards, F. T. (Frederick Thompson), 1864-1921.... Arthur Burdett Frost (January 17, 1851 - June 22, 1928), usually cited as A. B. Frost, was an American illustrator, graphic artist and comics writer. He was also well known as a painter. Frost's work is well known for its dynamic representation of motion and sequence. Frost is considered one of the great illustrators in the "Golden Age of American Illustration". Peter Sheaf Hersey Newell (March 5, 1862 - January 15, 1924) was an American artist and writer. He created picture books and illustrated new editions of many children's books.... John Kendrick Bangs (May 27, 1862 - January 21, 1922) was an American author, humorist, editor and satirist. Biography: He was born in Yonkers, New York. His father Francis Nehemiah Bangs was a lawyer in New York City, as was his brother, Francis S. Bangs. He went to Columbia College from 1880 to 1883 where he became editor of Columbia's literary magazine, Acta Columbia, and contributed short anonymous pieces to humor magazines. After graduation in 1883 with a Bachelor of Philosophy degree in Political Science, Bangs entered Columbia Law School but left in 1884 to become Associate Editor of Life under Edward S. Martin. Bangs contributed many articles and poems to the magazine between 1884 and 1888. During this period, Bangs published his first books. In 1888 Bangs left Life to work at Harper's Magazine, Harper's Bazaar and Harper's Young People, though he continued to contribute to Life. From 1889 to 1900 he held the title of Editor of the Departments of Humor for all three Harper's magazines and from 1899 to 1901 served as active editor of Harper's Weekly. Bangs also served for a short time (January-June 1889) as the first editor of Munsey's Magazine and became editor of the American edition of the Harper-owned Literature from January to November 1899. In 1894, Bangs ran for the office of mayor of Yonkers, New York, but was defeated. He also was a member of the Board of Education in Yonkers. He left Harper & Brothers in 1901 and became editor of the New Metropolitan magazine in 1903. In 1904 he was appointed editor of Puck, perhaps the foremost American humor magazine of its day. In this period, he revived his earlier interest in drama. In 1906 he switched his focus to the lecture circuit. During the period between 1901 and 1906, Mr. Bangs was known to have spent at least parts of his summers at the Profile House in Franconia, New Hampshire. He owned one of the 20 connected cottages adjacent to the large hotel, which he sold to Cornelius Newton Bliss in August 1906. As a satirical writer, he was also known in the "Profile Cottage" circles as a jokester and prankster and was frequently the jovial topic of hotel guests and cottage owners alike. In 1918, he lectured for the Young Men's Christian Association and allied troops on the battle front in France during World War I. In 1886, he married Agnes L. Hyde, with whom he had three sons. Agnes died in 1903. Bangs then married Mary Blakeney Gray of New York in 1904. In 1907 they moved from Yonkers to Ogunquit, Maine. John Kendrick Bangs died from stomach cancer in 1922 at age fifty-nine, in Atlantic City, New Jersey.....

Weekly Options for Monthly Income Jon Schiller, Ph.d. 2015-10-06 Weekly Index Options became available on the Chicago Board of Options Exchange in 2003. I have watched this type of Options Trading evolve as more investors used weekly trading. The trading software I have developed adapted to the weeklies evolution. The software became simpler: It uses SPX for the weekly options My principle strategy for trading Weekly Index Options uses 2 sigma Condors: Short Calls 2 standard deviations above the market and the Long Calls the next strike price higher; Short Puts 2 standard deviations below the market and the Long Puts the next strike price lower. This is called 2 Sig Iron Condors. I have developed a tactic to make weekly profits in spite of the huge daily Up and Down movements in the SPX. SelfAdapSPXweeklyVLTLY is the name of my software which I use to generate monthly income. The software described in this book uses only SPX for the options because I discovered that when I used other underlying stocks or indices such as Google and SPY, SPX usually finished best. This book describes how to use the TradeMonster real-time SPX quotes for computing the 2 sig Condors used in my Software: SelfAdapSPXweeklyVLTLY. Trade Monster's affiliate OptionsHouse can be used for Weekly Options trading if you have a minimum of \$2,000 in the account. I use 1/4 of the capital = \$500 for Margin to generate about \$100 for the week or \$400 for the Month. In other words you get 90% return per month on \$500 margin. Remember the weekly in-out trades should be no more than 2 per week to avoid being designated a day trader by your broker which requires a minimum of \$25,000 in your account.

Appalachian Daughter Mary Jane Salyers 2014-08-17 "Appalachian Daughter grabbed me Friday afternoon, and except for the time for sleeping and necessary duties, did not turn me loose until I finished it Saturday afternoon." Early Reader This coming-of-age novel depicts the trials, triumphs, and tragedies that befall Maggie Martin, the eldest of eight children whose family struggles to make ends meet on a hilly farm in Campbell Hollow, a narrow mountain valley in East Tennessee. On the last day of eighth grade, Maggie begins to dream of finding a way to escape the drudgery and confinement of life in the hollow and establish her independence. Her plan begins to fall in place when she enters high school and discovers she has a natural talent for excelling in shorthand, typing and other business classes. Meanwhile she spares no effort in helping her family continue to survive despite their poverty, a less than fertile few acres, and a family history of instability. She strives to fit in at high school in spite of the harsh limits placed on her by her hot-tempered, authoritarian mother, Corie Mae. She often turns for support to her easy-going father Ray, who sometimes intervenes to overrule Corie Mae's restrictions. As she goes about her life, doing her school work and helping out at home, she interacts with interesting, unforgettable, and sometimes dangerous characters, including a mentally challenged neighbor, an escaped convict, and a lecherous employer. She is forced to make decisions and take actions that would be difficult for a much older adult. Maggie meets each challenge with determination, imagination, and courage whether it's cutting a pitchfork from a mare's tail or helping to deliver her baby sister. The typical spoken language, folkways, and traditional beliefs and religious practices are skillfully woven into this portrait of Appalachian family life. The author's sympathetic insights into mountain culture combined with memorably etched characters and events create a realistic reflection of Tennessee mountain life during the decade following WWII. Maggie's life takes an unexpected turn when her cousin JD reveals a dark secret that could shatter the family. Maggie struggles to maintain her dreams of a better life amidst the many trials that will test the grit of this Appalachian Daughter. "I absolutely loved the story! I really think that the thoughtful approach to the main character's life situations will be meaningful to girls and boys who read the book." Early Reader

**Mercury Living Presence LPs and CDs** Kim Weston 2016-12-17 This book is primarily concerned with the classical music catalog of Mercury Living Presence recordings recorded and published by the Mercury Record Corporation. Mercury Records made some of the finest and most natural sounding audio recordings ever made, mostly of excellent and committed performances of classical music. But this is not a history of Mercury records or even of the Living Presence series of recordings. My main focus was to create a list of all the Mercury Living Presence classical records. I am mostly interested in the stereo recordings, but there are also many earlier mono recordings of great interest, too, so I have included those also. Specifically, what is included is information on the SR 90000 series of stereo recordings and the MG 50000 series of mono recordings, but there is also a listing of the Wing classical reissue series. \*\*\*\*\* Decades ago, when I began collecting Mercury records, and years later when I started collecting the CDs, I was looking for a complete list of all the Mercury Living Presence records and later the CDs. Though I found some information that was helpful, to get what I wanted, I had to make the list myself. I started with lists of records on the record sleeves of the albums, got some information from The Absolute Sound! magazine, and in the internet age, found useful information on several internet sites, but mostly to get the list I wanted, I had to dig up the information and build it myself. Having completed the list, it occurred to me that other collectors might find it helpful, too. So I put together a group of databases and spreadsheets in Microsoft Excel and Microsoft Works database format files and issued the databases I had created on a CD-ROM disc in early 2013. By that time I had all the original series of CDs mastered by Wilma Cozart Fine, and many of the records that had been reissued on CD, and virtually all of the stereo records not issued on CD, plus most of the mono records in which I had a strong interest. Now it is available as a book. Among other things it includes the following lists: Complete Mercury Living Presence CDs, including every CD, with its track information, identifying Composer, title, soloist, conductor, orchestra, CD #, LP where originally published, and recording date. Complete Mercury Living Presence LPs including every LP with its track information identifying Composer, title, soloist, conductor, orchestra, LP #, CD on which it was reissued if any, and recording date. Different versions of the files are arranged by: Composer and Title, Recording Date, Record number, and CD number. There are also listings of LPs and LP tracks that have not been reissued in the Mercury Living Presence CD series. Included are listings of all original Mercury Living Presence records in the SR 90000 and MG 50000 series, all CDs originally mastered by Wilma Cozart Fine, all SACDs, and the more recent reissues and new issues in the large 50+ CD box sets and the 10-CD box sets of Marcel Dupré and Janos Starker. There are also a few chapters of background information, little known facts, and other topics of interest. Hopefully readers will find it interesting and useful.
