52.behavioral medicine: an interdisciplinary field that integrates behavioral and medical knowledge and applies that knowledge to health and disease 53.behavioral psychology: the scientific study of observable behavior, and its explanation by principles of learning. 54.behaviorism: the view that psychology (1) should be an

THE KOLB LEARNING STYLE INVENTORY 4

Immediate or concrete experiences are the basis for observations and reflections. These reflections are assimilated and distilled into abstract concepts from which new implications for action can be drawn. These implications can be actively tested and serve as guides in creating new experiences (Figure 2). Figure 2. The Experiential Learning Cycle
