The Humber G.N. Georgano 2008-03-04 The ancestry of Humber goes back as far as any in the British motor industry, to 1868 when Thomas Humber began to make French-style forerunners to the bicycle, in Nottingham. The first Humber cars were also of French design, but Humber soon became a wholly British car made in two factories, cheaper models at Coventry and more expensive ones at Beeston. Humbers were among the most respected British cars of the 1920s, moving up-market in the 1930s. Humbers retained their reputation for quality up to the end of the line in 1976.

100 Great Lives John Canning 1975

Colonial Lives Richard E. Boyer 2000 Colonial Lives offers a rich variety of archival documents in translation which bring to life the political and economic workings of Latin American colonies during 300 years of Spanish rule, as well as the day-to-day lives of the colonies' inhabitants. Intended to complement textbooks such as Burkholder and Johnson's Colonial Latin America by presenting students with primary sources -- the raw materials on which the facts in other textbooks are based -- this reader strives to illustrate the impact of issues such as race, class, gender, sexuality, culture and religion in the daily lives of both natives and colonists alike. The concerns, struggles and perspectives of the inhabitants of colonial Latin America are reflected in transcripts of civil and criminal court cases, administrative reviews, ecclesiastical investigations, Inquisition trials, wills, and letters the editors have included in this reader. Each document is prefaced by an introduction that places it in the social and political context of the period. The book also includes a glossary of terms and lists of suggested further readings. Most uniquely, the book offers helpful thematic cross-referencing sections and an index of themes which allow instructors to easily adapt the book to their courses and to assign readings according to the criteria of their own specific curriculums.

Chrysler's Turbine Car Steve Lehto 2010-10-01 Offering a behind-the-scenes look into the world of automotive research and development in the 1960s, this engaging narrative traces the birth of Chrysler's alternative "jet" car and reveals the story behind its sudden and mysterious demise. Relying on extensive research and firsthand accounts from surviving members of the turbine car program—including the metallurgist who created the exotic metals for the engine and the test driver who drove it at Chrysler's proving grounds—this chronicle documents the bold development of an automobile with a jet turbine engine. In addition to running well on virtually any flammable liquid—including kerosene, vodka, heating oil, and Chanel N°5 perfume—the pioneering engines had one fifth the number of moving parts and required less maintenance than conventional engines. Despite the fleet's amazing performance over millions of miles by test drivers, Chrysler pulled the plug on the project and crushed almost

all of the cars. The reasons behind the surprising end to the jet car fleet are finally explained here.

Continuity and Change in Irish Poetry, 1966–2010 Eric Falci 2012-07-30 In this book, Eric Falci reshapes the story of Irish poetry since the 1960s. He shows how polemical arguments concerning the role of poetry in 1960s Ireland evolve into a set of formal and compositional strategies for emerging Irish poets in the mid 1970s and beyond. His study presents a cohesive picture of the relationship between Northern Irish poetry from the Republic of Ireland since World War II and traces the lineage of lyric practice from a unique historical perspective. At the same time, it recontextualizes late twentieth-century Irish poetry within the long Irish poetic tradition, places Irish writing more accurately within the field of postwar Anglophone poetry and offers a new account of lyric's critical capacities. Of interest to Irish studies and twentieth-century poetry specialists, this book provides a much-needed guide to some of the most inventive and notable poetry written in the past forty years.

Women's Rights and Women's Lives in France, 1944-1968 Claire Duchon 1994 *Women's Rights and Women's Lives In France* explores the everyday experiences of women between the liberation, and May 1968. In 1945, French women believed that a new era was beginning for them, in which they had finally won equality (the right to vote in 1944, equal pay and access to education and employment). But the new Republic considered that women's main role was that of motherhood. Competing visions of women's place had concrete implications for women's lives, influencing work, politics and ideals of femininity. Working from a wide range of sources, including women's magazines, prescriptive literature, political pamphlets, fiction and memoirs, and government reports, Claire Duchon follows the debates concerning women through twenty years, and grounds them in the changing social reality of postwar France.

The fantastic: Would you rather be able to talk with all animals -OR- be able to understand all languages? The priority-testing: As a soccer player, would you rather mess up and score a goal for the other team but still have your team win -OR- play your best game ever even though your team loses? And the hair-raising: Would you rather swim across a river that is filled with crocodiles -OR- spend the night on an island where man-eating tigers live? Fascinating sidebars throughout are filled with interesting ancillary information—the nature of drool, left-handedness vs. right-handedness, what's dangerously filthy and what's just gross, why we blush when we're embarrassed—so kids can learn something as they laugh!

Images of Postmodern Society Norman K K Denzin 1991-08-27 By using a series of studies of contemporary mainstream Hollywood movies - "Blue Velvet, Wall Street, Crimes and Misdemeanors, When Harry Met Sally, Sex Lies and Videotape, Do the Right Thing" - Norman Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists like Baudrillard, Barthes, Habermas, Jameson, Bourdieu and Derrida. He relates these to the problematic of the postmodern self as exposed in cinema centering on the decisive performance of race, gender and class.

Blang 2011-04-16 *Allies at Odds* examines America's Vietnam policy from 1961 to 1968 in an international context by focusing on the United States' relationship with its European partners France, West Germany, and Great Britain. The European response to America's Vietnam policy provides a framework to assess this important chapter in recent American history within the wider perspective of international relations. Equally significant, the respective approaches to the "Vietnam question" by the Europeans and Americans reveal the ongoing challenge for nation-states of transcending narrowly defined state-centered policies for a global perspective pursuant of common goals among the trans-Atlantic allies. Blang explores the failure of France, West Germany, and Great Britain to significantly influence American policy-making.

"ÁMi Raza Primero!" (My People First!) Ernesto Chávez 2002 *¡Mi Raza Primero!* is the first book to examine the Chicano movement's development in one locale--in this case Los Angeles, home of the largest population of people of Mexican descent outside of Mexico City. Ernesto Chávez focuses on four organizations that constituted the heart of the movement: The Brown Berets, the Chicano Moratorium Committee, La Raza Unida Party, and the Centro de Acción Social Autónomo, commonly known as CASA. Chávez examines and chronicles the ideas and tactics of the insurgency's leaders and their followers who, while differing in their goals and tactics, nonetheless came together as Chicanos and reformers. Deftly combining personal recollection and interviews of movement participants with an array of archival, newspaper, and secondary sources, Chávez provides an absorbing account of the events that constituted the Los Angeles-based Chicano movement. At the same time he offers insights into the emergence and the fate of the movement elsewhere. He presents a critical analysis of the concept of Chicano nationalism, an idea shared by all leaders of the insurgency, and places it within a larger global and comparative framework. Examining such variables as gender, class, age, and power relationships, this book offers a sophisticated consideration of how ethnic nationalism and identity functioned in the United States during the 1960s and 1970s.

Wild Goose Moon Ben Shepperd 2010-05 "Molly Ivins, Texas columnist and wry observer of American culture, called 1968 'the year everything happened.' 1968 finds America engulfed in political and racial turmoil, assassinations, and a war seemingly without end. The year finds Tom Windham trying to deal with a few of life's basics - love, death, God, and sex. A sophomore at a conservative university in Dallas and the veteran of an upbringing in a small East Texas town, Tom sits uncomfortably on the cusp of adulthood. He is joined there by his roommate Brandeis. Along with the young women in their lives, their college friends, and their families, they experience the joys, struggles and tragedies of the year on a human scale. While the events of the operatic year keep intervening, changes in American attitudes toward sex, race, women, war and religion are also reflected in *Wild Goose Moon*"--Publisher description.

I Drink My Moo I Do My Poo That's All I Do Robert Baker 2020-09-30 Time to go....I've taken enough of your time..... My life has been a good life. I think I handled everything that was thrown at me. I know others were involved in some of the trials and tribulations that came my way and I hope I handled them OK. If I didn't, I'm truly sorry. Growing up I thought my childhood was bad in some respects. But a couple of things have changed that idea. One was writing this story. The other was back into the 80's when my mother moved to Seattle and I listened to her talk to my daughters about my childhood. When I listened to her tell those stories, I realized I had built a wall around my upbringing and I was steadfast in thinking, "it wasn't as good as it could have been". Those stories made me realize, "I did have a good childhood", and just maybe..... I could have been a better son.

Blood-Kissed Sky J. A. London 2012-12-26 *The second book in a romantic and drama-packed trilogy perfect for fans of Rachel Vincent, Julie Kagawa, and Alyson Noel.* Lusciously romantic and full of action-packed drama, readers will be swept away by this thrilling novel. Dawn Montgomery knows that monsters really do come out at night—after all, they are her job. It's just after the thirty-year war between vampires and humans, and as an ambassador between the two sides (a role she inherited when her parents were killed), Dawn quickly learns that balancing schoolwork, teen life, and the requests of Lord Valentine, the most frightening vampire in the region, isn't easy. There's nowhere left to hide. I thought vampires were our enemies—they controlled our lives, isolated our cities, and demanded our blood—until I met Victor. With Victor taking over as the new Lord Valentine, things were supposed to get better. Instead, they're worse than ever. Day Walkers, a new breed of vampires who can walk in the sun, are terrorizing the city. Blood supplies are low, and if Victor's vampires don't get enough, they will become infected with the Thirst—a disease that will turn them into mindless killers. To stop it, I must journey across the desolate wasteland to the very place

where the sickness began. I can only hope that the answers that await me are enough to save us all...before it's too late.
